

Sound Solutions

TASKDOOR include :
WOOD DOORS | STEEL DOORS | FRAMEWORKS | SPECIALTY DOORS

Leader in door opening solutions supporting end-user for safety, security and suitability.

TASKDOOR manufacturers sound rated (STC) doors in wood and hollow metal to serve you and your need for sound control and to help you creating environs that promote privacy, productivity, and concentration.

Adding Beauty to Sound Controlled Openings:

TASKDOOR continues to offer several choices in architectural flush wood doors to meet the rising demand of fulfilling your security, life-safety, and aesthetic requirements. Trankuil – Acoustic Door includes both wood veneer and decorative laminate.

TASKDOOR has expanded their Acoustic STC products offering doors control sound from low to high STC rating.

Applications

Perfect for airports, healthcare, hospitality, government / military and municipal buildings and educational institutions.

Features :

- Sound transmission class (STC) ratings ranging from low to high.
- Optional - with no added urea-formaldehyde.
- Installed with standard or heavy weight hinges
- 20 to 180 minute fire rating available with most STC ratings.
- STC ratings maintained with specific lite cutouts.
- Seal sets provided with every door(optional).
- New door construction results in more competitive pricing, allowing higher STC ratings for lower STC applications.
- STC doors can be bullet resistant.
- STC doors can be blast resistant too.
- Anti microbial coating for all your healthcare needs.
