TASKCORE Current

We are dedicated to improving our customers' lives through Safety, Security, and Suitability.

TASKCORE is a leader in door opening solutions and a market leader in Middle East. Since almost 3 decades we have stayed firmly as a forefront of our industry, continually exploring and developing new products to suit both the changing demands for buildings and the environment.

TASKDOOR has a complete range of door core, solutions and services for the institutional, commercial and consumer markets catering for customers in the education, healthcare, hospitality, industrial, commercial, residential, retail and government sectors in the Middle East.

Using the latest technologies and tried-and-tested techniques, we are constantly developing innovative solutions that improve our customer's lives through greater safety, security, and suitability. We didn't just test one door core to see whether it could be used as a fire door – we tested every conceivable door configuration.

We developed a new way of constructing a door – using door core made from 3-layer particle board. This intricate combination of chemical and engineering development has resulted in the superior quality and strength of TASKCORE as a high performance wooden door.

TASKCORE ensure continuity of quality for the product. It is this expertise that sets TASKCORE above other door cores. We have the full range of tested door cores and we are the first company in the Middle East that also have an unrivalled range of wooden fire doors, fire glass and fire rated steel frames.

Our aim is to continue to be the industry's most innovative manufacturer of door core solutions. Just let us know the construction and performance criteria required and we'll tailor a door accordingly, based on years of experience and extensive testing.

What makes TASKCORE unique.

TASKCORE has continued to enhance its product range, recognizing that specifier's and fabricator's needs change. At the same time, TASKCORE has expanded their product offering, so that specifier's can source all their quality door requirements from a single, trusted manufacturer - supplier. Today, TASKDOOR offers an unrivaled range of wood and steel fire doors, but also fire-rated wood and steel frames, fire glass, seals and hardware.

TASKCORE offers a range of solutions and services aimed at supporting clients unique needs. Making use of our talented team we provide assistance in product research and testing, material pre-treatment, custom cutting and sanding, and other assistance that may be required in reaching product requirements.

Single Source: TASKDOOR – is manufacturer and supplier of frames, glass, seals, hardware as well as most types and combinations of wood & steel doors. You can now specify complete range of door for any project from a single source, with all the benefits that brings.

- **Peace of mind:** By specifying all combinations of doors from TASKDOOR you're ensuring that all the components are compatible and that, together, they will achieve the specified ratings.
- **Consistent quality:** Everything in the TASKDOOR is of a uniformly high quality. Specifying a complete combination of doors and you can rest assured no part will let you down.
- **Convenience:** Why spend time and money shopping around when you can source your entire door requirement from a single supplier who you can rely on to provide high quality, competitively priced components. Order from a single supplier and get everything delivered together. TASKDOOR makes life easy.
- **Technical know-how:** At TASKDOOR we know how each and every component of its door works together, so whatever your question is – both before and during your project – TASKDOORs technical support team will have the answer
- **Complete compliance:** Every TASKDOOR meets the current British and American standards and is fully certified.

Excellent Quality: TASKCORE is specifically designed for the purpose. Our unique core produces a door of superior quality, strength and overall performance.

Density and hard surface: Doors can be specified with a range of finishes, from paint to plastic laminate to veneer. Each TASKCORE is produced on one of the most advanced systems with which consistency and quality are assured. The technical expertise, combined with commitment to quality, sets TASKCORE apart.

Consultation and Custom Solutions: Our extensive knowledge in the testing of components for fire rated opening enables TASKCORE engineers to provide consulting services ranging from researching potentially new products and helping clients breeze through the Certified Testing Procedures.

Technical Assistance for Clients: Our engineer have working background in design and manufacturing and TASKCORE can manufacture cores for specific or multiple threat-levels. Our unique status as manufacturer in the Middle East enables us to work independently with clients. Together with the specialized equipment in our plant, TASKCORE has swiftly become a research and manufacturing arm for multiple clients.

Competitively priced and respected in the Middle East: Today you'll find TASKCORE - door in educational, healthcare, hospitality, industrial, commercial, residential, retail and government buildings all over the Middle East.
