Leader in door opening
solutions supporting
end-user for safety,
security and suitability.

TASK Current

TASK - The leader in door opening solutions, committed to supporting end-user requirements for safety, security and suitability

We are dedicated to improving our customers lives through Safety, Security, and Suitability.

TASKDOOR is a leader in door opening solutions and a market leader in Middle East. TASKDOOR has a complete range of door opening products, solutions and services for the institutional, commercial and consumer markets.

Using the latest technologies and tried-and-tested techniques, we are constantly developing innovative solutions that improve our customers' lives through greater safety, security and suitability.

Our aim is to continue to be the industry's most innovative manufacturer of door opening solutions

What makes TASKDOOR unique.

"TASKDOOR" has been the manufacturer for the "TASK" brand in Middle East for almost to 3 decades. We have been successful with manufacturing for the building industry. Today we have an extremely comprehensive range of products and services which allow us to offer complete door solutions.

We manufacturer, sell and market a full range of door solutions, standard and specialty doors in wood and steel and this, makes us unique."

What do customers appreciate most about TASKDOOR

"Quality" We want partner customers to repeatedly come back to TASKDOOR. In addition, in the MiddleEast contractors require stock and supply quickly. TASKDOOR is proud to hold huge stocks of raw material required for manufacturing its products. The economy of today is one which is cash tight and holding stock is something a lot of companies cannot afford to do, we win business time and time again because we hold stock and can supply to customers at short notice.

TASK Current

TASK - The leader in door opening solutions, committed to supporting end-user requirements for safety, security and suitability

TASKDOOR cooperation

This is a constant process, and the best example is that TASKDOOR factory and offices are in UAE. Cooperation is continuous with our customers as we have common goals.

Our Vision

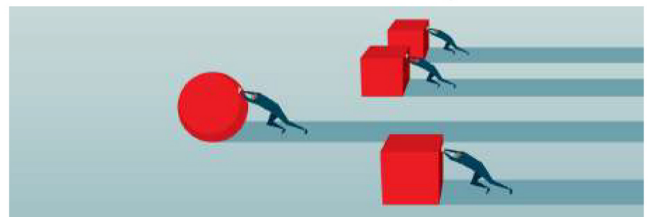

To be the leader, the most successful and innovative provider of total door opening solutions To lead in innovation and manufacture well-designed, suitable, safe and secure solutions that gives added value to all mankind.

Technical Support - online / offline

With in-depth knowledge & support documentation.

Innovation - the basis of future growth

A constant flow of new, innovative and suitable products is the most important driver for the growth of TASKDOOR. Today TASKDOOR is well established as the leader in door opening solutions. R&D investment has greatly increased, reaching new record levels each year.

While we acknowledge that innovation has been crucial to our growth, it is by no means a recent addition to our strategy. Just 25 years ago TASKDOOR manufactured only standard hollow metal doors. Today, we design, create, manufacture, install and service the full range of advanced door opening solutions in wood and hollow metal. Standard and Specialty door solutions.

With the expertise and experience we have gained close to three decades, TASKDOOR is in a position to lead the future development of our industry, not only in terms of product development but suitable outcomes, ensuring our solutions are affordable and safe for mankind.

TASK Current

TASK - The leader in door opening solutions, committed to supporting end-user requirements for safety, security and suitability

Strategy

TASKDOOR strategy is towards providing increased safety and security with a product-driven offering centered on the customer. The strategic action plans are focused on three areas: market presence, product leadership and cost-efficiency

Market presence

Increasing growth in the core business and expanding into new markets and segments.

Product leadership

Continuously develop innovative products offering enhanced product with lower product costs.

Cost efficiency

Reducing the cost through improved processes, be close to the customer and manufacturing being in low-cost countries.

Brand strength

- We combine overall strength with local presence and understanding.
- We offer our customers door opening solutions that perfectly fit their current and future needs.
- We have years of experience but, as the young generation join the business, we have a fresh view of the world.
- We blend traditional products with innovative technology.
- We provide our clients with products developed to meet global standards.

Business & Market

- TASKDOOR is the leading manufacturer and supplier in the Middle East. Through the years TASKDOOR has its market presence in the Middle East.
- Demand for TASKDOOR is driven by the increasing need for safety and security. As prosperity rises and development continues, the demand for sustainable door opening solutions continues to grow.

Providing Solutions

TASKDOOR is the leading manufacturer and supplier of door opening solutions, meeting tough end user demands for safety, security and suitability. With over 3500 completed projects in Middle East TASKDOOR is the reliable and strongest in the industry. Our commitment to quality is evident in every product we offer – in their splendid appearance, safety and security features and long-lasting performance. Look to TASKDOOR for all your building challenges.

Our most important goals are ensuring life safety within the built environment, These requirements encompass a broad and very diverse spectrum of threats, including fire. TASKDOOR offers a complete range of door solutions that make people feel safe and secure in simple and convenient ways. Our full range of standard and specialty doors includes acoustic, safety, and suitable solutions for all applications. Today's builders face unique challenges in protecting their occupants, employees, data and property - both intellectual and physical. Our door solutions include the broadest range of security products and technologies in the industry.

In the Middle East, TASKDOOR markets a wide range of high-quality doors and frames for all sectors. TASKDOOR is considered a highly competent and reliable partner by its clients due to its complete know-how, state-of-the-art technology, creative ideas and innovative production processes.

We offer the widest range of door opening solutions and our products enrich buildings across the Middle East.

Our standard doors range provides standardized sizes and performance specifications, while retaining the ability to choose from a wide variety of surface materials, styles, finishes, and architectural details. Thus providing both the improved cost effectiveness and value provided by standard products, while retaining the opportunity for architectural skill, which being critical to the success of major building projects.

TASKDOOR have found wide applications in all construction developments. Our range of flexible opening solutions provides both value and choice.

TASKDOOR manufacturers a full range of standard and specialty wood doors that are available in a variety of veneers and finishes. Doors can be manufactured to meet any hardware application. TASK's manufacturing flexibility and wide selection of woods combined with superior standard and custom finishing and color matching capabilities enable us to build wood doors to suit any critical aesthetic and engineering requirements.

TASKDOOR offers a multitude steel of doorway solutions, including fire-rated, doors available in a number of gauges and honeycomb, polystyrene foam and steel stiffened cores. We are a leading manufacturer of steel doors and frames for commercial, industrial and institutional buildings.

Secure door and entrance environs are increasingly being developed into total concepts for buildings in interaction with suitability requirements.

Besides complete door opening solutions, TASK Security Solution Providers offers their customers a whole range of services, expert guidance and solutions for individual, commercial and special applications. Our highly specialized team of door security experts takes the time to understand an organization's challenges and recommend the appropriate solution to match the risk at each opening.

TASKDOOR

TASKDOOR - Benefits to the architect, contractor and client.

The standard commercial door set comprises a fully finished door leaf and frame set and is optionally supplied with all seals, hinges, lock case, striking plate and flush bolts for pairs.

The benefits

- Complete package; fully finished wood & steel door and frame,(Optional) ironmongery, seals, vision panels, all ready to use.
- One proven, reliable source of supply, the "one stop shop"
- Tested, approved and certificated as one assembly.
- Factory glazing.
- Kick plates and fire discs available to order
- Reduced risk of errors
- All this makes a fast site installation possible and minimizes product damage on site.

Reduced cost

- Standardization without compromising on quality or visual impact.
- Components are sub assembled, allowing doors to be kept safe until the very last moment before handover, thereby reducing risk of site damage

Manual handling

- The sub-assembled format also gives consideration to Health & safety demands and allows ease of handling and distribution.

TASK Specialty doors excel during intense operation and in demanding conditions. They improve efficiency and safety in any application. Our range of doors suit many applications from doors for hospitals, hotels and residential homes, as well as schools, offices and retail. Whatever the location we have a TASKDOOR to suit.

Speciality Door

TASKDOOR - Benefits to the architect, contractor and client.

Specialty - Acoustical Door Assemblies STC 50-53

STC levels 50-53 are available with our specialty doors. Noise control has quickly become a major concern for a wide range of building applications. Using the latest technology in light weight sound absorbing techniques, TASKDOOR has developed acoustical assemblies to be the noise solution for any application and any facility. We have the capability to provide our customers with sound retardant doors for use in sound sensitive environments such as airports, hospitals, government buildings, auditoriums, condominiums, hotels, and educational institutions. Acoustical TASKDOOR are available in a variety of finishes, including stainless steel.

Specialty - Bullet Resistant Doors - Level 1-8

BullerResist from TASKDOOR Level 1-8 offers protection against bullet penetration and fragmentation. Our shield protects against assault and vandalism at vulnerable door openings. Level 1-8 is designed for openings that requiring bullet resistance by high-powered military rifles. Custom engineering allows aesthetic choices to be combined with performance requirements:

Specialty - Blast Doors

Blast Resistant Solutions meet safety and security objectives for blast resistance. Providing extra protection against explosions and excessive force, BlastShield doors from TASKDOOR meet or exceed the stringent manufacturing requirements of all regulatory groups. The advanced strength and integrity of these openings bring other important benefits: long life, high durability, and maximum corrosion resistance.

Specialty - Lead Lined

Speciality Door

TASKDOOR - Benefits to the architect, contractor and client.

Lead-lined wood doors from TASKDOOR are available with a wide range of options including lead thickness, fire ratings, factory prefinished, along with selection of wood veneers. TASKDOOR provide protection from radiation. These openings accomplish the important task of reliably containing radiation in sensitive areas. Lead-lined doors are a necessity in healthcare facilities. Custom engineering allows aesthetic choices to be combined with limiting radiation.

Specialty - RF Shielding

RF shielded doors from TASKDOOR allows for accuracy in equipment function, procedures and results. Prevents outside interference, thus allowing for accurate test data and ensure that sensitive and confidential information is contained. Radio Frequency Shielding doors are best for use for Healthcare, Commercial, Industrial and Governmental Facilities.

Specialty - Attack Resistant

TASKDOOR offers an Attack Resistant Door, designed to delay access from intrusion. The doors are equipped with ProtectorGlass an attack glazing certified to withstand a brutal physical attack from an intruder for over 4 minutes. This extra time keeps occupants safe until first responders can

neutralize the threat. The combination of TASKDOOR and ProtectorGlass provides easy and affordable retro-fitting to tighten the security of existing openings such as schools and other public or private facilities that use wood and hollow metal doors.

Specialty - Forced Entry Bullet Resistant

Forced Entry Bullet Resistant TASKDOOR prevents ballistic and forced-entry attack. The door is equipped with advanced materials that provide an elevated threat protection solution to withstand 15 minutes of simulated "mob" attack and resistant to ballistic rounds. Forced Entry Bullet Resistant Assemblies safeguard anywhere where the highest level of protection and durability are important considerations.

Specialty - Stainless Steel Doors

Sleek and beautiful stainless steel doors from TASK DOOR give architects and designers a sleek aesthetic option to satisfy today's style preferences. The complete, high-quality stainless steel door and frame system is ideal important practical feature for many building owners commercial, institutional and high style environments.. Our stainless steel product line is the ideal solution for clean room environments, provides corrosion resistance and areas susceptible to moisture, and also provides safety and security.

TASKDOOR for every environ

We open doors to LIFE. We are present in everyday life of people.

We open doors to the places in the MIDDLE EAST. You can find us in exciting places in Middle East

We benefit PEOPLE with our products and solutions. People open our doors to benefit with our Solutions

We open doors to the FUTURE, With innovation we continue opening doors to the future

Meaning of “Opening a door”.

In the past it was said that every “door we open” provides an opportunity. Today we say that our lives might actually depend on which doors we choose to open – and which must remain closed.

The mission of TASKDOOR remains the same. Through innovation, we provide safety, security, and suitability solutions to simplify people's lives, every day, everywhere and for everyone. Where a child can open a classroom door that does not require the strength of a weightlifter. A doctor, rushing for an emergency, does not have to worry about spreading bacterial infections. A statesman has peace of mind knowing that only authorized personnel will gain access to his office. That you and I can at all times be safe and secure in our homes. Our aim for the future is to continue to open doors – to life, to the people and to the future.

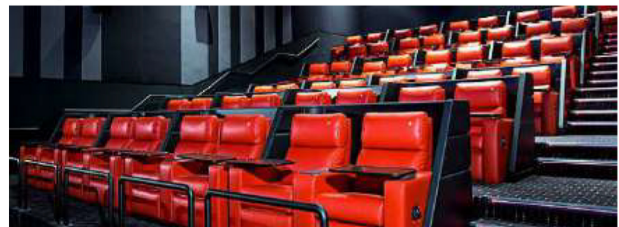

TASKDOOR has been a part of everyday life for decades, through the generations, and we are now entering a new generation. Our innovative solutions will open new doors in the future, that will cover many entry and exit points in life. TASKDOOR has solutions designed for many different segments. So whether you are coming home, going on a vacation, entering a boardroom meeting or in a location far away from home, look for a TASKDOOR we're probably there, too.

Hospitality

TASKDOOR is the leading door solution provider and continues to offer innovative solutions to the hospitality industry. Most of the five-star resorts in the Middle East are perfectly situated by the sea where the construction and architecture reflects splendor, with a central roundabouts, lush green gardens and charming cottages with hanging wooden balconies. The reception areas are spectacular. Hotel guests feel secure in this exclusive environment with TASKDOOR. Veneered doors are ideal as they are available in many veneers to suit any décor. We have a standard range of veneers, special veneer species as well as re-constituted natural veneer with matching or contrasting hardwood edge lipping's are also available.

Stadium and other Public Facilities like Amphitheater and Concert Halls.

TASKDOOR for every environ

We open doors to LIFE. We are present in everyday life of people.

We open doors to the places in the MIDDLE EAST. You can find us in exciting places in Middle East

We benefit PEOPLE with our products and solutions. People open our doors to benefit with our Solutions

We open doors to the FUTURE, With innovation we continue opening doors to the future

TASKDOOR has door solutions to meet the needs of stadiums and other public facilities in the Middle East which has the capacity to house thousands of spectators for events like concerts, sports like racecourse, cricket, football.... TASKDOOR provide solutions from doors installed in a facility's main entrance, to door solutions restricting entry to off-limits areas, or the exit doors that provide secure exit in case of an emergency. TASKDOOR is committed to enhance any visitors experience.

Public transportation facilities such as airports, train and subway stations

TASKDOOR has a wide range of door solutions for public transportation facilities such as airports, train stations and subway stations to ensure safety and suitability for large number of people. These include solutions for main entrance, exit and emergency doors, and high security doors. UAE Metro is one Middle East's leading passenger carrier. Everyday thousands of employees are provided mobility. Other related public transport networks include land, ocean and air freight transport where TASK DOOR have been provided.

R&D Center

TASKDOOR provides solutions, include solutions for security doors. The doors need to be flexible. They must be able to handle a flow of people with access throughout the day, as well as allow for safe exit in case of an emergency. Multinationals in Middle East countries have massive investment in R&D office buildings, comprising of product engineering, R&D, a testing lab, employee leisure facilities and other operations. Thousands of employees work in the buildings where new products are annually developed. TASKDOOR has provided doors to facilitate the safety and security needs of the facilities.

Shopping centers, shops and boutiques.

We open doors to the places in the MIDDLE EAST. You can find us in exciting places in Middle East

We benefit PEOPLE with our products and solutions. People open our doors to benefit with our Solutions

We open doors to the FUTURE, With innovation we continue opening doors to the future

Shopping centers, shops and boutiques and shops require door aesthetic solutions that enhance the customer shopping experience. TASKDOOR provides entry, exit and emergency door solutions that brought a number of benefits, including increased energy savings, improved hygiene, increased convenience for customers and safer in and out flow for people.

Educational - schools and universities

Providing students and staff with a safe and convenient environ for learning and living is the primary security concern for schools and universities TASKDOOR helps these institutions by integrating door solutions to meet their unique security challenges.

Thousands of students spend their days and nights studying in the library, learning in the classroom, attending sporting events, relaxing in residence hall – all while enjoying easy access to school

Educational establishments require some of the highest durability ratings of any door type. This has been recognized for schools throughout the Middle East.

Hospitals and healthcare buildings

TASKDOOR offers the latest in safety, security, suitability and design for healthcare environs, such as environmentally friendly doors and antimicrobial-coated doors which help with infection control.

TASKDOOR offers a door to suit each requirement. Hospital standards are extensively documented and specialist performance products are required for definite applications. TASKDOOR range covers every door configuration and hinge or pivot option needed. In addition heavy duty door and frame protection against abuse and physical damage can be added to ensure long term service life. TASK DOOR ensures a high level of construction and manufacturing as required by the industry's standard.

Private homes

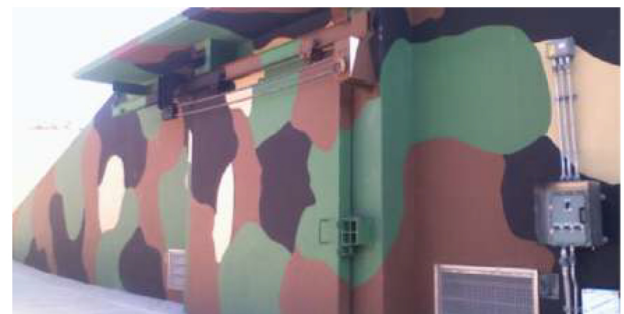

TASKDOOR security solutions for private homes are improved for a wide range of environs, from apartment complexes to individual family homes. Door solutions for residential purposes must offer protection against burglary and theft, and also be user-friendly. Door and furniture can also be matched with home décor and provide convenience, design and security that come with TASKDOOR.

Offices and specialist applications

Fluctuating from general duty to high performance acoustic and fire resistance, offices and other applications such as studios, media center, administration facilities, communication centers, as well as transport, entertainment and leisure facilities and many more applications, all have specialist door requirements.

Defense Establishments

TASKDOOR offer a range of door types which are suitable for communal and access areas in defense establishments. These environments demand doors that are robust and compliant with industry standards and specifications. Door are (optionally) supplied with integrated ironmongery.

TASKDOOR

choice of finishes

Veneer

TASKDOOR offer a selection of veneered surfaces for doors and frames, and hardwood lippings to two or four edges.

- Veneers can be crown cut, or quarter cut, depending on species selected. Doors are fully factory finished, hardwood lippings and glazing beads are supplied to complement or contrast.
- Frames are available in softwood, softwood veneered or solid hardwood.
- Crown cut veneers are “book-matched” giving an attractive and continuous matched pattern across the width of the door making each group of assembled veneers one continuous attractive pattern.

Painted

TASKDOOR painted door range provides a practical, hard-wearing and easily cleanable door solution.

- Fully factory finished painted doors, available in many RAL numbers, provide a highly durable and quality finish, significantly better than can be achieved on-site.
- Frames are available in softwood, softwood veneered or solid hardwood.
- Colors for doors and frames can be complemented or contrasted with each other as per requirements.

Laminate – plain colors

Available in a vast varying selection of different colors from bright, bold solid colors to subtle tones. These create an internal environments, designed for the required purpose.

- Fully factory finished hardwood lippings and glazing beads are also supplied.
- Doors are faced with laminate from the plain color ranges and are supplied hardwood lipped on two or four edges, or alternatively can be PVC edged.
- Frames for laminate doors are available in softwood, softwood veneered or solid hardwood.

Laminate - Wood Grain & Other Designs

Laminate doors are favored in many commercial applications as they are characteristically known for being hard-wearing, heavy-duty doors.

- Doors are faced with an industrial laminate wood grain effect and are hardwood lipped on two or four edges, or alternatively can be PVC edged.
- A laminate finish gives an easy-to-clean and stain resistant surface.
- The range available from our suppliers are as per the industry standards.

TASKDOOR Customer Support exceeding your expectations

All innovation and production within TASKDOOR starts from the end users' needs. Our dedicated team work behind our products – each one representing an important link in the TASKDOOR chain of production and innovation. We share the same goal – to offer well designed, convenient, safe and secure solutions to our customers.

Many of our customers when asked what was most important in their relationship with TASK DOOR, immediately and without hesitation answer “The people”, definitely. All require working with the best people. We believe we are hardworking professionals who work hard and with honesty. This is very important to us. Besides we have the best door solutions, the best prices and the right people in place to deliver and install. And that goes for the whole chain – from the Customer, design, R&D, production, marketing, sales logistics, to installation and service.

TASKDOOR provide a wide range of support and services to all customers making all aspects of working with us for your doors requirements as straight forward and simple as possible.

Pre-qualification questionnaires (PQQ) and specification

Our team of TASK Security Solution Providers are happy to answer any questions about the TASKDOOR range and will discuss your requirements over the phone, by fax, e-mail or in person. TASKDOOR specification templates are readily available.

Tendering

We have an experienced team of people dedicated to pricing tenders. Please provide specification clauses, door elevation drawings

and/or door schedule to enable us to supply detailed and well-structured meaningful proposal.

Technical support

Expert technical support is available within the Sales team. The TASKDOOR Technical Guide is available upon request, detailing all standard door specifications. We provide full support and advice on all applicable certification and regulation issues.

TASKDOOR Customer Support exceeding your expectations

All innovation and production within TASKDOOR starts from the end users' needs. Our dedicated team work behind our products – each one representing an important link in the TASKDOOR chain of production and innovation. We share the same goal – to offer well designed, convenient, safe and secure solutions to our customers.

Scheduling

Essential for the smooth running of every contract, effective scheduling is critical. TASKDOOR provide this service through experienced and helpful schedulers.

Order processing and control

Every order is thoroughly checked and verified against our quotation and other information supplied by the customer. Any queries will be raised and any amends will be made before the order is put into production.

Delivery

Product is delivered twice every working week. TASKDOOR has an excellent track record of delivering on time.

After Sales Service

TASKDOOR is renowned for excellent quality and we pride ourselves on supplying the highest standard of products.

All products are fully packaged before leaving the factory to minimize any risk of damage. Installation, generally, is the responsibility of the customer and should be fitted in accordance with our fitting and maintenance instructions. TASKDOOR Security Solution Providers offer an installation support, supervisory service where required.

Doors are prepared for installation and generally no further work is required. However, certain components will be supplied loose for fitting on site where it is impractical to factory fit. In case of any complaint or site service requirement, where justified, this is free of charge. Where replacement products are required, we operate a priority manufacturing service to get these to site without the normal lead time being incurred.

Training and CPD

We can provide a range of training to support customers with presentations on specific subjects.

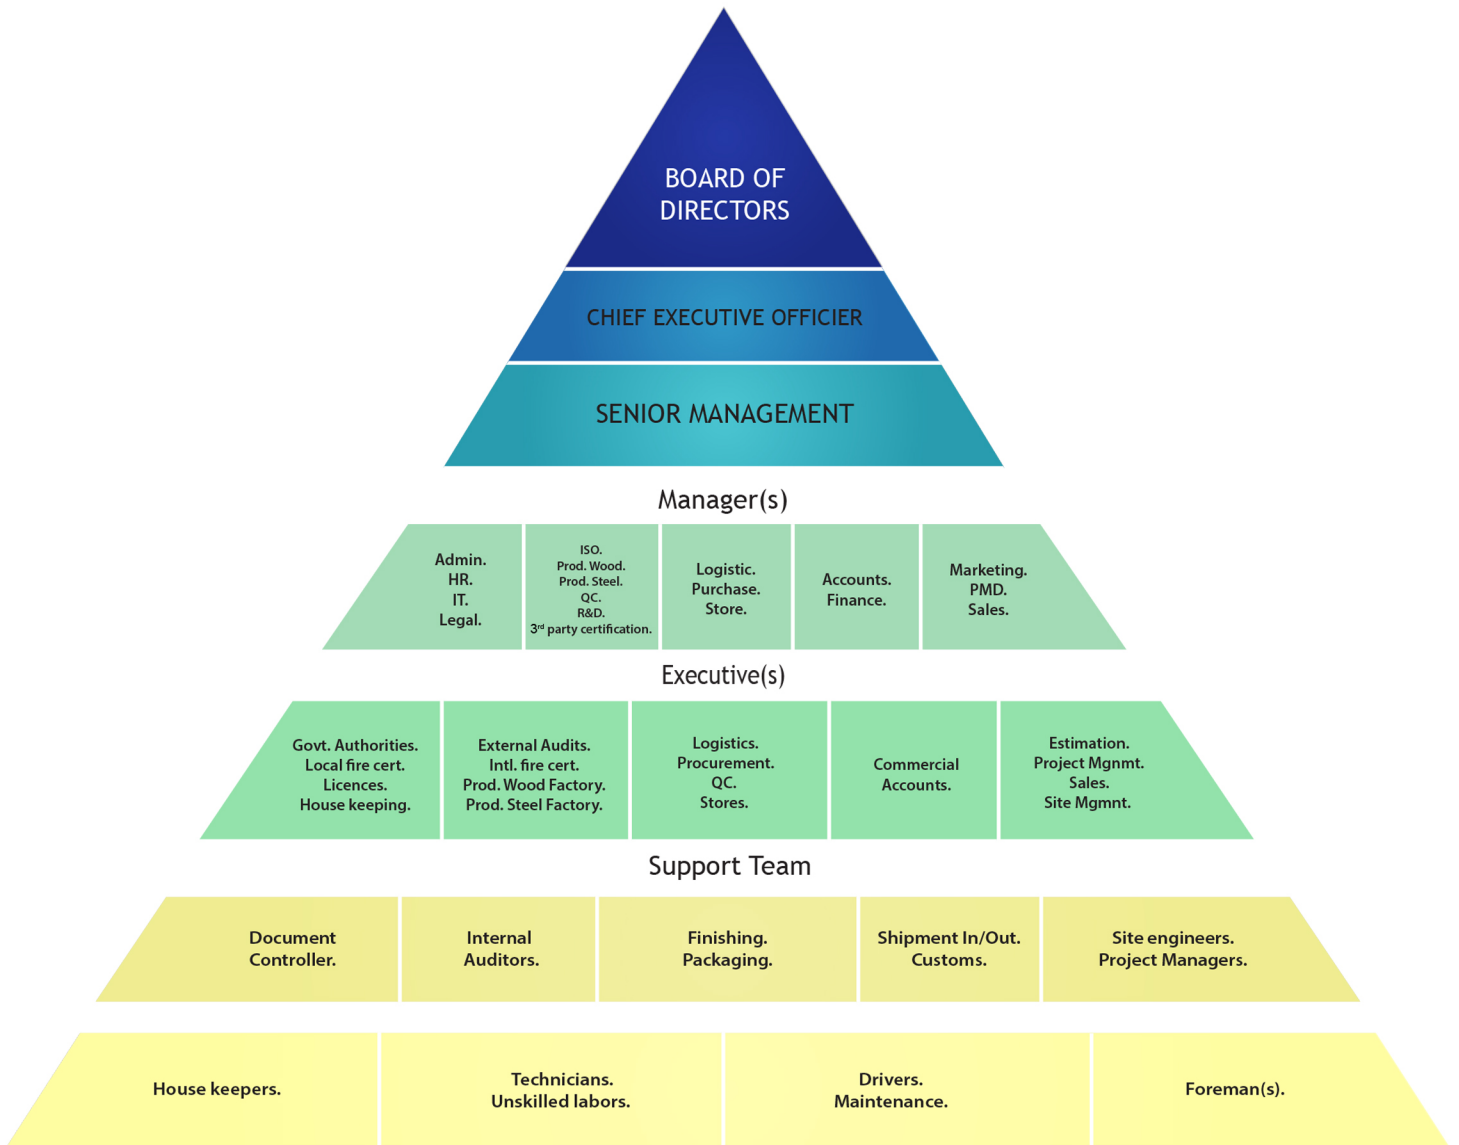

**TASKDOOR is found
