TASK Current

TASKWINDOW

Excellence across three decades

TASKDOOR windows are the pre-eminent supplier of steel windows in the Middle East. For almost 30 years, the company has been pioneering technical and aesthetic improvements within the metal windows sector, and today sits as the leading source of steel windows in the Middle East.

TASKDOOR offers the most comprehensive range of steel windows. This ensures maximum custom capability and responsiveness to individual project requirements. The luxury of spontaneity and the freedom to design with confidence, TASKDOOR can transform your signature project with flexible engineered solutions. Whether it's classical, traditional or modern, TASKDOOR can deliver the extraordinary.

TASKDOOR is equally active in new construction and refurbishment. Projects range from replacing windows to supplying windows for the most contemporary buildings designed by today's foremost architects.

TASKDOOR factory is ISO certified in its engineering and production capacity, and the company's in-house facility and finishing plant are among the most advanced.

A popular manufacturer - Dealing directly with the source

TASKWINDOW

As leading manufacturer of custom windows and doors in Middle East, we are driven by our technology and personalized communication, to deliver value in more ways than just great windows. We deliver improved value by selling windows directly rather than through multi-level marketing networks.

We have our own integrated state of the art flexible CAD-driven manufacturing systems whereby we create a business model that provides the architect and builder the flexibility. We can confidently say we offer our customers an unmatched level of flexibility, tested product designs and dependable delivery for both custom as well as our large mass production.

When you work with TASKWINDOW you are dealing with the designer, manufacturer, seller, and supporter of the windows and doors you are purchasing. Everyone you work with is part of TASKDOOR, committed to the same goal. There is no dealer markup and no translation required between seller, designer and manufacturer. And there is no one between you and the people who will support you.

Seamless Communication

With TASKWINDOW you work directly with our staff of professional Project Managers who are able to explain the customization, product specifications and value engineer by tailoring our manufacturing to achieve your personalized design objectives and budget.

Beginning from initial concept, to the detailed shop drawings the final solution will be customized to deliver your unique design within budget and delivered on time.

TASKDOOR Advantages:

- Direct transactions without a middleman (factory reps are knowledgeable)
- Clear and concise communication (details are correct)
- Prompt and detailed documentation (every window and door has a dimensioned shop drawing and sectional drawing)
- Technology driven integrated business model from sale through to service (precision accuracy from the start)
- Tested and engineered designs available
- A proven track record of successful collaboration with leading Middle East architects and contractors
- Approved and recommended supplier to key authorities across Middle East

Eliminate the decision of having to compromise between design aesthetics or performance. With TASKWINDOW you can achieve both.

Why choose steel windows

TASKWINDOW

The unique benefits of steel

No other material provides such a comprehensive choice of performance benefits.

Elegance and versatility

The versatility of steel enables its use in both traditional and contemporary building designs. Steel windows can be used internally as well as externally. They provide consistency in design throughout the building. The aesthetic appeal of steel confers elegance to classically styled building, and strength and impact to contemporary architecture.

Strength and security

Where security is paramount, steel is unmatched. Significantly stronger than aluminum, PVC-U and wood, steel also permits greater design freedom with the use of large expanses of glass and narrow sightlines.

Durability and maintenance

The life cycle of performance by steel is unsurpassed. Powder coating at TASKDOOR advanced finishing plant ensures.
