# TASK Current

*The beauty and reliability of TASKDOOR wood has made them a favored choice for construction projects in the Middle East. Our Wood Doors provide most types and styles of wood doors and we are one of the few manufacturers able to deliver both Standard and Specialty doors on the same order. With our ability to produce uniquely designed doors, TASKDOOR offers architects total design freedom.*

Our full range of wood doors are available in a variety of veneers and finishes and can be manufactured to meet any standard or custom hardware application. Our manufacturing flexibility, with wide selection of woods combined with superior standard, custom finishing and color matching capabilities enable us to build wood doors to the most critical aesthetic and engineering requirements.

TASKDOOR is a respected manufacturer and we have become a leader in the industry with technology and innovation through devotion to research and development. TASKDOOR has the unique ability to design and build the most innovative, secure, and technologically advanced wood doors. We are continuously testing, modifying, and pursuing ways to become the one source customers choose to fulfill all their door opening requirements.
